

SYNERGY SELECT CASE STUDY

AMERICAN EAGLE PAPER MILLS

OVERVIEW

American Eagle Paper Mills produces the highest quality recycled papers, delivering optimal printing performance while demonstrating a commitment to the sustainability of natural resources. According to their website, they integrate deinking and repulping processes which transforms waste into premium paper, saving trees, energy and water while reducing greenhouse gas emissions

CHALLENGES

American Eagle was experiencing high claim costs associated with work related injuries. This contributed to an increase in their experience MOD, worker's compensation premiums, and resulted in a less than desirable safety culture.

SOLUTIONS

Synergy began working directly with the safety director, HR manager and supervisors at American Eagle Paper Mills to identify safety hazards and train supervisors. Corrective actions were implemented which resulted in not only a decrease in the frequency and severity of incidents, but in an improved safety culture as well.

RESULTS

-  **60%** decrease in incurred
-  **74%** decrease in average claim cost
-  **35%** decrease in experience mod
-  **100%** commitment to transitional return to work

They're here to make your business as profitable as it can be, and make sure your employees go home at the end of the day safely. We have made some great progress in the last couple of years; specifically since Synergy has come on board to assist us
