Synergy provides workers' compensation coverage to the agriculture industry.

Our Safety Professionals become thoroughly familiar with your organization and serve as an extension of your workforce. We will conduct monthly visits to assist your organization in compliance, training and implementation of your individualized SOS Business™ Plan.

Conscientious
We become thoroughly familiar with your business.

Hands-On
We work proactively with HR to develop guidelines for future hires.

Innovative
Comprehensive risk analysis & internal studies are used to develop a customized business plan.

Once your customized loss prevention business plan has been implemented we continue to refine your culture of safety by using the SOS™ model to focus on the specific changes and challenges that are unique to the agriculture industry and work to mitigate them which in turn reduce injuries.

In an effort to reduce or eliminate industry trends, our Safety Professionals are focused on the organization's housekeeping program, machine guarding of equipment, and safe work behaviors of all employees.

The Safety Professional will address any safety concerns as well as provide recommendations and corrective actions based on monthly department safety audit findings.

Synergy will provide effective loss prevention services to help keep your workplace safe so you can focus on what you do best.

"Our organization is very pleased with the services provided by Synergy Insurance. Our employee claims have drastically reduced and work accidents are only minor ones. They are a great insurance company and I would recommend them to anyone."
