In an effort to reduce or eliminate industry trends such as cuts, burns, and strains/sprains the audit also focuses on higher frequency departments such as cafeteria and maintenance. Our Safety Professionals also recommend verbal de-escalation trainings, among other safeguards, to further enhance the safety culture.

The Safety Professional will address any safety concerns as well as provide recommendations and corrective actions based on monthly department safety audit findings.

Synergy will provide effective loss prevention services to help keep your workplace safe so you can focus on what you do best.

"We have been a client since the 2011/2012 school year. Over the seven-year period, the District has realized a 62% decrease in average claim costs. The monthly fresh look audits at each of our buildings have resulted in the entire workforce to be safety conscious. Synergy's team is always professional and truly takes ownership of reducing accidents, injuries, and costs." -**John M., School Industry**
