Synergy provides workers' compensation coverage to the social service industry.

Our Safety Professionals become thoroughly familiar with your organization and serve as an extension of your workforce. We will conduct monthly visits to assist your organization in compliance, training and implementation of your individualized SOS Business™ Plan.

Conscientious
We become thoroughly familiar with your business.

Hands-On
We work proactively with HR to develop guidelines for future hires.

Innovative
Comprehensive risk analysis & internal studies are used to develop a customized business plan.

Once your customized loss prevention business plan has been implemented we continue to refine your culture of safety by using the SOS™ model to focus on the specific changes and challenges that are unique to the social service industry and work to mitigate them which in turn reduce injuries.

In an effort to reduce or eliminate industry trends, our Safety Professionals are focused on CPI, ESPI or additional state required trainings, recommending verbal de-escalation trainings, ensuring behavioral and/or care plans are updated and followed, if applicable, educating employees to identify risks in the community, and safe work behaviors of all employees.

The Safety Professional will address any safety concerns as well as provide recommendations and corrective actions based on monthly department safety audit findings.

Synergy will provide effective loss prevention services to help keep your workplace safe so you can focus on what you do best.

“Synergy and SOS has brought awareness to leadership and the employees on Safety and handling incidents. They have provided us with education and training that has helped our workforce which has translated to a reduction in employee injuries and employees not being out of work. This has helped us reduce the burden for mandatory overtime, in turn, helping us to save money.” - **Gina D., Social Service Industry**
