

# WASTE MANAGEMENT INDUSTRY

1.877.704.7060 | [www.synergyinsurance.com](http://www.synergyinsurance.com) | Sharon, PA

Synergy provides workers' compensation to the waste management industry.

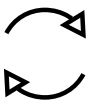

Our Safety Professionals become thoroughly familiar with your organization and serve as an extension of your workforce. We will conduct monthly visits to assist your organization in compliance, training and implementation of your individualized SOS Business™ Plan.

**Conscientious**  
We become thoroughly familiar with your business.

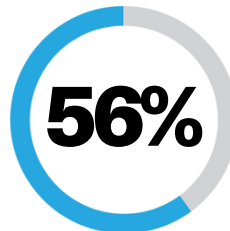

**Hands-On**  
We work proactively with HR to develop guidelines for future hires.

**Innovative**  
Comprehensive risk analysis & internal studies are used to develop a customized business plan.

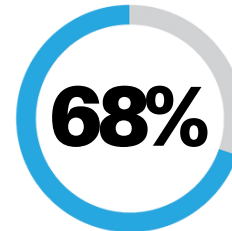

To better service our clients in the industry, a Truck Route Audit has been developed to ensure compliance with industry rules, regulations and best practices, including employee behaviors.

IMPACT

Decrease in Incurred Cost

IMPACT

Premium Savings Over 4 Years

IMPACT

Decrease in Average Experience Mod

The Truck Route Audit is designed for the Safety Professional to make an unannounced visit to the trash truck and its occupants on their designated routes.

The Audit includes observation of the operations with additional inspection of the truck, evaluation of specific safety equipment, and the review of compliance paperwork.

The Safety Professional will address any safety concerns as well as provide recommendations and corrective actions based on monthly department safety audit findings.

Synergy will provide effective loss prevention services to help keep your workplace safe so you can focus on what you do best.

"The SOS Model helps us reduce our claim's frequency and the open communication with our Claims Managers lets the employee know that we're on their side. The greatest benefit has been the reduction in our experience mod. In 2016, our mod was .644 which ranked us first in trash and recycling companies in the state of Pennsylvania. We also went three years with zero lost time accidents." **-Rachael F., Waste Management Industry**
