

Client Profile & Qualified Submissions

Ideal Client Profile

We partner with employers who are ready to improve their workers' compensation results. Our ideal client will commit to creating a safer work environment and implement a transitional return-to-work program.

The ideal business is:

- Primarily operating within a 4-walled or controlled environment
- Domiciled in and have the majority of exposure in DE, GA, IL, IN, KY, MD, MI, NC, PA, SC, TN & VA
- Have \$50,000 minimum in annual workers' compensation premium
- Have less than 25% of total payroll in over-the-road exposure* with a radius of travel less than 300 miles

Experience Mod

Synergy partners with companies that have an experience mod of 1.0+, and with a CEO/CFO that want to improve their safety culture and ultimately reduce their direct/indirect costs. The greater the premium and experience mod, the more relevant our Synergy of Safety program becomes for the client. Some companies with a premium of >\$250K and a credit experience modification can benefit from our model and may be considered too.
