BERKLEY MEDICAL

Founded in 1897, Berkley Medical is the oldest and largest OEM provider of infection control face masks in the United States. Today, after manufacturing and distributing 12 billion face masks to the world wide surgical, dental, veterinarian and laboratory markets, Berkley remains the industry's leader in developing the most advanced face masks for the 21st century.

BEFORE SYNERGY COMP

Berkley needed help controlling claims and creating a culture of safety. They started with Synergy in 2013. After 2 years, they saw a decrease in claims and cost of claims.

WITH SYNERGY COMP

Synergy came in and worked directly with managers to create a culture of safety. Through safety assessments, training, and routine visits, the plant is now safer and more productive.

2013 BEFORE SYNERGY

AMOUNT INCURRED	\$409,668
AVERAGE CLAIM	\$22,759

2015 WITH SYNERGY*

AMOUNT INCURRED	\$12,725
AVERAGE CLAIM	\$749

*2015 policy year annualized and developed with Synergy loss development factors

JOHN BERKLEY, PRESIDENT
Berkley Medical

"Our experience has clearly exceeded our expectations. In our particular case, our e-mod history went from 1.844 to 1.566 over 14 months and I must say this is pretty impressive. This is a union company, we have a great relationship with our union team and everybody has bought into what Synergy has done to create the safest possible work environment"
