LIVING BRANCHES

Living Branches is a not-for-profit system of retirement and family living communities in southeastern Pennsylvania. The organization exists to provide and maintain life-enriching experiences for those residents who live at each of their communities.

KATHY SHOTT
CHIEF HUMAN RESOURCES OFFICER

"We have been with Synergy for several years and they have delivered on what they promised – our MOD has decreased.

I appreciate Synergy's philosophy of putting their best claims people on each claim right from the start, rather than waiting until things go bad and then putting their top employee on the case; which is what we have experienced with other carriers.

The partnership with SOS Consulting through Synergy has been extremely helpful. Monthly walk-through safety audits and interviews with injured employees have been very useful in containing our worker comp costs."
