## ALL HOLDING COMPANY, LLC

ALL Holding Company, LLC is the jointly owned entity of the merger of Alderfer, Inc. and Leidy's, Inc. The merged company maintains the highest processing standards in the industry by offering quality meat products for generations.

## BEFORE SYNERGY COMP

ALL Holding was having some difficulties with their claims handling. The previous claims representatives were unresponsive and did not conduct thorough investigations. There was also little to no follow-up on claims or injuries that occurred in the workplace. This contributed to an increase in their average claim cost and Workers' Compensation premiums.

## WITH SYNERGY COMP

Upon partnering with Synergy, the HR manager, supervisors, and account executives began working with Claims Management and Loss Prevention to drive claim costs down and increase safety awareness throughout the organization.

## 2013 PRE SYNERGY

INCURRED COST	\$394,287
