

Supporting the Injured Employee in Real Time

Provide your staff with immediate 24/7 access to specialized nurses for the treatment of workplace injuries.

Our Nurse Triage Program steps in for swift and accurate care intervention following a workplace injury. This helps avert the escalation of minor injuries and the development of major claims which minimizes lost work time.

Within 30 seconds of calling, injured employees engage directly with a nurse. A summary of the visit and the initiation of a claim are provided to you within 15 minutes after the call, ensuring both you and your employee have peace of mind.

Benefits

Short Term:

- Reduced claim exposure
- Reduced time off work
- Reduced lag time
- Fewer ER visits
- Better network penetration

Long Term:

- Proactive management
- Increased confidence in recommendations
- Increased employee satisfaction
- Lower total cost of claim
